

The governance of the Academy rests with its Board and a Director, who is responsible for making recommendations to the Board and for carrying out the day-to-day arrangements. Appointments to the Academy Board are made in part by the IASSID Council and the Academy Board on the recommendation of the Academy's Director.

Persons proposed for appointment to the Academy Board are recognized for their leadership in research and education and agree to commit the time to actively participate in the Academy's governance, strategic planning, curriculum development, and review processes.
