ALZHEIMER'S DISEASE AND DEMENTIA IN DOWN SYNDROME AND INTELLECTUAL DISABILITIES

Category : Intellectual Disabilities

Author : Vee P Prasher

ISBN : 1-85775-608-8

Description : 'The basic aim of this book is to help carers and professionals living or working with adults with intellectual disability to understand further Alzheimer's disease and other forms of dementia. This book aims to put research into clinical practice and if as a result of this book, one person with intellectual disability has their dementia diagnosed early, treated appropriately and professionally and carers are supported with sympathy and compassion, then this book has not been in vain.' Vee P Prasher

Ageing with a Lifelong Disability

A Guide to Practice, Program and Policy Issues for Human Services Professionals

Category : Intellectual Disabilities

Author : Christine Bigby

ISBN : 1-84310-077-0

Description : Based on the author's research experience and social work practice expertise, this pioneering guide provides up to date specialist knowledge about ageing with a disability in the context of the more mainstream knowledge about ageing processes. Dr Chris Bigby uses the concept of 'successful ageing' as a framework in which to consider the issues and practicalities for older people with a pre-existing disability. Bigby presents strategies for the various challenges involved in the physiological, psychological and sociological aspects of ageing and proposes an integrated framework of service development and policy

Health of Women with Intellectual Disabilities

Category : Intellectual Disabilities

Mental Health, Intellectual Disabilities and the Ageing Process.

Category : Intellectual Disabilities

Author : Philip Davidson, Mathew P. Janicki, Vee Prasher

ISBN : 1405101644

Description : In common with the rest of the population, patients with intellectual disabilities are experiencing increased longevity. Evidence suggests that mental health disorders may occur in up to half of all persons with intellectual disability and that these disorders accelerate significantly with age. The purpose of this book is to highlight mental health and behavioural needs in adults with intellectual disabilities and to become a source of reference regarding a number of mental health conditions in this population as well as a sourcebook for treatments of choice.
